

Smart Control Manual 2026

Footbath Smart Control

Hoofcount's Smart Control system allows connection to your footbath from any connected web browser, giving you current status information, allowing you to change setting remotely, and sends email notifications.

Section 1: Smart Control Initial Setup

1. Email your Device Name and farm name to setup@hoofcount.com.
Your Device Name is located on the Login Card or on the Smart Device (see below)

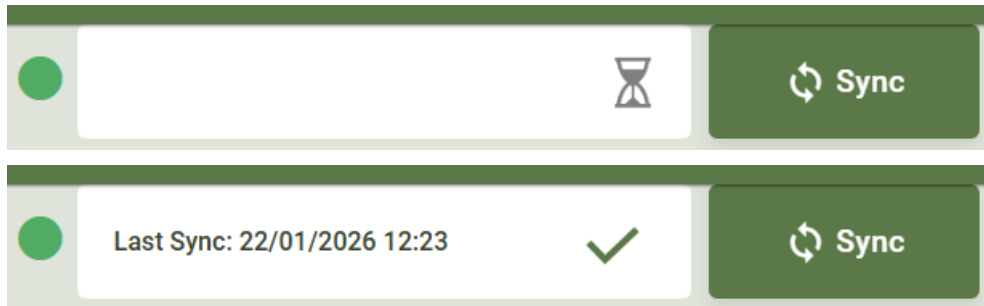

2. We will send you a username and password to login to the dashboard via your computer browser at cloud.hoofcount.com

Section 2: Syncing with your Footbath

Syncing

To ensure the information displayed on the dashboard is current, press the sync button, wait for the date & time to update, and the green tick to appear.

Once you have changed a setting, sync with your footbath again to ensure the change has been made.

Connection

The green circle shows your footbath is online.

your footbath is offline, the circle will turn red and you will need to check your footbath has both power and internet.
